# Reciprocating 2 To 25 HP Two-Stage Medium Pressure

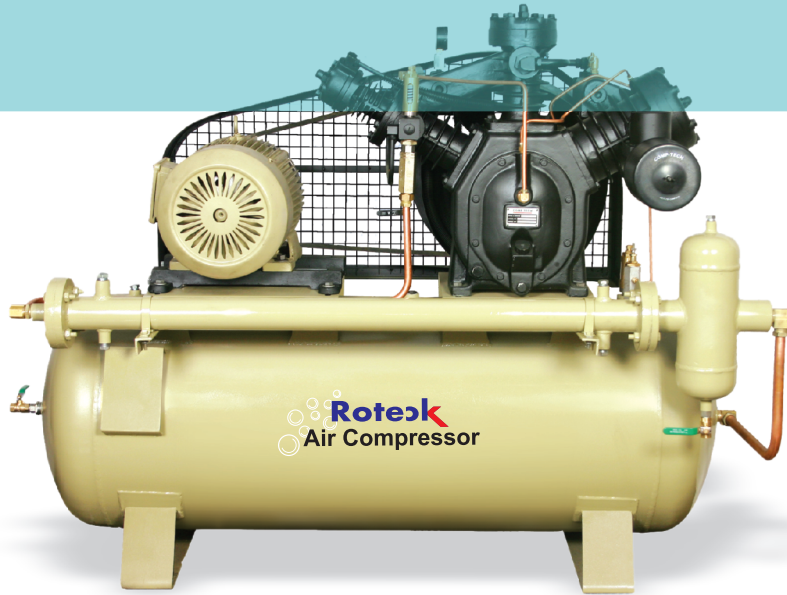

Two - stage air compressors are designed for medium pressure application and are made of heavy-duty components to give optimum performance. These compressors have two different sized cylinder bores. Robust overhung design crankshaft for reliability and easy maintenance, solid end connecting rods, high thermal efficiency, inter-cooling, totally reliable splash lubrication and balanced V-type construction for smooth, vibration-free operation.

## TWO STAGE HEAVY DUTY INDUSTRIAL AIR COMPRESSOR

Model	Motor HP	No. of Cylinders	Piston Displacement Cfm	Maximum Pressure		Air Receiver (Ltrs.)
				psig	kg/cm <sup>2</sup> g	
RAC 334	2/3	2	7.46/9.79	175	12.3	150
RAC 342	5	2	17.32	175	12.3	225
RAC 353	7.5	2	26.40	175	12.3	225
RAC 60	10	2	37.8	175	12.3	300
RAC 71	12.5	2	46	175	12.3	300
RAC 115	15	3	55	175	12.3	300
RAC 115	20	3	81	175	12.3	500
RAC 120	20	3	80	175	12.3	500
RAC 125	25	3	99	175	12.3	500
